DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15, 16 and 19-22 are rejected under 35 U.S.C. 102(b) as being anticipated by Carter (US 5,994,674).

Carter anticipates the structure claimed including a plate being made of glass ceramic having a rounded edge whose cross-sectional portion is thicker than the thickness of the plate

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 18 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carter (US 5,994,674) in view of Colvin (GB 2 099 137).

Carter discloses all the structure claimed except having the upper side different from a planar shape such as having the profiled portion elevated over the flat upper side of the plate.

Colvin shows a plate having its edge having a profiled portion elevated from its upper flat side of the plate to contain food spills. In view of Colvin, it would have been obvious to one of

ordinary skill in the art to adapt Carter with the elevated profile on the upper side to contain the food spill within its plate.

Response to Arguments

5. Applicant's arguments with respect to claims 15, 16 and 18-23 have been considered but are moot in view of the new ground(s) of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gartner (US 3,591,753) and Lorenz et al (US 4,960,978).
